

Goal #1 – Understand the Main Options Under the Memories Tab

There are 4 main options under the "Memories" tab.

1. **Overview:** An overview of the features in the Memories section.
2. **Gallery:** This page contains all of the family memories that YOU have submitted. These include photos, stories, documents, and audio recordings. There is a LOT that you can do from this Gallery page that will be covered in the next module.
3. **People:** This page contains all of the memories that have been submitted by YOU and OTHERS, that are attached to your ancestors and their descendants (cousins).
4. **Find:** Using some creative searching, you can search for any media that is found in Family Tree, and maybe not yet attached to your tree.

ALL

Note the top menu icons on the left side. In the above example, ALL types of documents are showing. From left to right, the icons represent Photos, Stories, Documents, and then Audio Recordings. Clicking on each type of icon, will only show that specific type of memory in the main pane.
