

Understanding Your Source Box

Goal 5 - Understanding Your Source Box

Overview:

1. While you won't probably use the Source Box much at first, as you later begin searching for records, this box allows you to save your sources in file folders so you can review them later. As FamilySearch has continued to improve, there is less a need for this file folder storage system.
2. How do you access this Source Box?
3. Click on your **log in name** in the right upper part of the webpage. Click on "Source Box".
4. The example below shows an example of a Source Box.
5. Note the ability to create folders and sort your sources into these folders.
6. We will discuss more about "sources" in later lessons.
