

Using Record Hints to Help You Find Sources

Goal 1.2 - How Do You Find Record Hints

There are several locations where you will see these hints shown to you.

1. The first one will be on the Pedigree Page to the right of the individual's names.

2. The second place will be when on the Person Page. Be sure to look for other Record Hints that may be available by clicking on the "Show Details" link. This will open up a separate page. Typically, if there are only one or two Record Hints shown, that's all there is, but if you see three Hints, there may be actually more Hints available.
3. Another place will be on the Opening Page of FamilySearch.
